

Consent Form

Project title: *Human Digital Twin Intelligence: Integrating Multimodal AI and Generative Models for Non-Intrusive Health and Activity Monitoring.*

Project Supervisor: Sira Yongchareon, Anuradha Singh, and Yanbin Liu

Researcher: Mohammad Shirazi, Biswash Paudel, Tong Wu, and Zhongcheng Hong

Consent statement	Yes	No
I agree to take part in this study.		
I agree to wear the Hexoskin vest and wearable IMU sensors during the study session.		
I agree to have my movement and physiological sensor data collected, including IMU, Hexoskin heart-rate/breathing-rate data, Depth camera, and mmWave radar data.		
I agree to be recorded by a fixed laboratory video camera for activity labelling and validation only.		
I understand that raw video is identifiable and will not be shared outside the approved research team.		
I understand that I may ask for the camera, radar, or wearable sensors to be stopped or removed at any time.		
I understand that raw video, names, contact details, consent forms, and directly identifiable information will not be released in any dataset.		
I understand that I may withdraw my data before it has been fully de-identified, aggregated, analysed, or released, but withdrawal may not be possible after that point.		
I agree that my de-identified, non-video sensor-derived data may be used in future ethically approved research.	☐	☐
I agree that my de-identified, non-video sensor-derived data may be included in a controlled research dataset under a Dataset Release Agreement.	☐	☐
